Course Descriptions

SKILLS TRAINING

Blueprint Reading - 40 hours

This course introduces a trainee to basic blueprint and plan reading. It covers a combination of light commercial, commercial and highway prints, exposing the trainee to a variety of construction plans and blueprints.

Concrete ICF / (Insulated Concrete Form Technologies) - 16 hours

This course provides trainees with the fundamentals of material handling, wall assembly, bracing, proper scaffolding techniques, and concrete safety. Trainees participate in extensive step-by-step hands-on training, combined with classroom instruction.

Prerequisites: Concrete Practices or at least 2 years of field experience

Concrete Practices & Procedures - 40 hours

This training course covers many aspects of the concrete industry, including mix proportioning, mineral and chemical admixtures, forming systems, sub grade preparation, placing and curing of concrete. Trainees participate in extensive step-by-step hands-on training such as placing and vibrating concrete.

Flagging / Temporary Traffic Control - 8 hours

This course exposes trainees to the rules and responsibilities of flagging and basic understanding of traffic control devices and layouts. Each trainee will receive a Mn/DOT flagging handbook.

Foreman Preparedness - 40 hours

This course provides a prospective foreman with leadership techniques utilized in the construction industry. It consists of instruction on communication techniques, construction math, job safety and hazard analysis, project organization and documentation, problem solving and human relations.

Prerequisites: Level 3 Apprentices and Journey Workers

General Construction - 40 hours

This course provides a trainee with the fundamentals of the construction industry. It covers the following topics: gas, electric & pneumatic tools, materials recognition, flagging/traffic control, compaction, rigging & signaling, torch cutting and burning, and introductory construction math.

***Note:** Mandatory for all Apprentices

Instruments - 40 hours

This course prepares an individual to perform the basic duties of grade checking, elevation setting, and various tasks associated with using instruments on building and highway heavy projects.

Line & Grade - 40 hours

This course familiarizes a trainee with the fundamental skills needed to work with lasers, levels, transits and hand-held levels to perform grade checking, slope and ditch calculation, grid staking and layouts. It involves a combination of classroom lecture and demonstration with extensive hands-on training. It is highly recommended for highway heavy construction laborers.

Prerequisites: Successful completion of the Instrument course

Mason Tending - 40 hours

This course provides a trainee with a thorough understanding of the duties and responsibilities of the mason tender such as: mortar mixing, scaffold usage, material handling, job site safety, block saw and hand tool safety and recognition.

Pipelaying I – 40 hours

This course is an introductory course to the sewer and water industry. It covers utility line and grade considerations and basic procedures for the installation of gravity flow and pressure piping systems. It also exposes the trainee to pipe fusion techniques.

Prerequisites: General Construction

Pipelaying II – 40 hours

This course covers advanced pipe laying techniques and math calculations for utility line and grade. It covers utility staking, utility testing procedures, sediment & erosion control, and a comprehensive look into crew responsibilities. Participants will also receive excavation and trenching safety, confined space awareness training, the Minnesota state plumbing code (pipelayer's card), and utility blue print reading.

Prerequisites: Pipelaying I

Pipeline Safety - 40 hours

This course introduces the tasks associated with natural gas and petroleum pipeline construction. Trainees learn about proper locating techniques, site grading, fence building, pipe stringing, dewatering techniques, pipe preparation, pipe coating, leak detection, testing and cathodic protection.

Plaster Tending - 40 hours

This course provides a trainee with a better understanding of the duties and responsibilities of the plaster tender such as: plaster mixing, material handling, job site safety, scaffold usage and hand tool safety and recognition.

Remote Camera Inspection/Trenchless Pipe Renovation - 40 hours

This course covers the proper operation and maintenance of remote camera inspection equipment, jetting and pipe cleaning techniques, various pipe and manhole relining and replacement methods, and the use of remote cutters for reinstating services in lined pipe.

Prerequisites: Successful completion of Pipelaying I & II or at least 2 years of field experience in pipelaying

Scaffold Erecting - 40 hours

This course provides a thorough base knowledge of safe and efficient scaffold erection of various scaffold types such as: system scaffold, rolling tower scaffold, tube and clamp, and welded tubular frame scaffold. It also addresses covering and sheltering techniques for mason scaffold. A trainee receives a scaffold competent person card upon successful completion of the course by achieving 80% or better on the exam.

Torch Cutting/Demolition Safety - 16 hours

This course covers torch set-up, safety, and hands-on training in cutting for demolition.

Welding/Air Arc - 200 hours

This course is a combined welding course. Torch Cutting covers various types of demolition torches, demolition safety in regards to torch operation and includes hands-on training. Trainees also receive an introduction to air arc cutting. A trainee receives 5 welding credits from the state vocational system upon successful course completion. Trainees demonstrating advanced proficiency may test for welding certifications.

ENVIRONMENTAL TRAINING

Asbestos Air Sampling - 16 hours

This course is designed for Asbestos Workers and Supervisors who wish to collect air samples in accordance with MDH regulations.

***Note:** Registration through your Local Union

Asbestos Abatement Training

- Asbestos Worker Initial - 32 hours
- Asbestos Worker Refresher - 8 hours, renewed annually
- Asbestos Contractor/Supervisor Initial - 40 hours
- Asbestos Contractor/Supervisor Refresher – 8 hours, renewed annually

Asbestos training is offered year-round and is a recognized demolition practice by OSHA and the Laborers Union. Training complies with Minnesota Department of Health regulations for persons performing Asbestos work in the State of Minnesota. Individuals desiring to work asbestos in the state of Minnesota must:

Workers: Prove 1,000 hours of construction experience
Supervisors: Prove 2,000 hours of construction experience
Certification in the state of Minnesota requires a completed affidavit, a picture and a state fee.

***Note:** Registration through your Local Union

Hazwoper Training - 40 hours

- Hazwoper Initial – 40 hours
- Hazwoper Refresher – 8 hours, renewed annually

This course covers 29 CFR 1910.120/29, CFR 1926.65, and Hazardous Waste Operation Worker Training (HAZWOPER). It consists of a combination of 30 classroom hours and 10 hands-on training hours.

Lead Training

- Lead Worker Initial - 24 hours
- Lead Worker Refresher - 8 hours, renewed annually
- Lead Supervisor Initial - 32 hours
- Lead Supervisor Refresher – 8 hours, renewed annually

Training complies with Minnesota Department of Health regulations for persons performing Lead work in the State of Minnesota. Only supervisors desiring to work Lead must prove 1,000 hours of related work experience. A state fee required for certification in Minnesota.

***Note:** Registration through your Local Union **Prerequisites:** Successful completion of the Instrument course

SAFETY TRAINING

CPR/First Aid - 8 hours

The Training Center offers Red Cross certified CPR and Emergency First Aid training.

Excavation/Confined Space Awareness - 8 hours

This course introduces trainees to the hazards and responsibilities of working in and around excavations.

Fall Protection - 8 hours

This course provides training in accordance to OSHA competent person standards for fall protection, fall hazard identification, proper protective system selection and the importance of pre-planning for fall protection.

Mine Safety/Health Administration (MSHA) - 8 hours

This course is a yearly refresher course on Mine Safety/Health Administration rules and regulations. Laborers must maintain a current certification to work on mine property.

Prerequisites: Successful completion of Safety Week with MSHA New Miner Training

OSHA 10 - 10 hours

This course instructs a trainee in the Code of Federal Regulations (CFR) for construction. It outlines the basics of OSHA, its mission in protecting the worker and covers ten different subparts of the OSHA standards.

Rigging & Signaling - 8 hours

This course introduces trainees to rigging and the proper use of wire ropes, choker slings, the various types of rigging hardware, single and multiple leg slings and load charts. It also addresses appropriate communication methods such as hand signals and communication equipment.

Safety Week – 40 hours

This is an intensive safety course that covers the OSHA 30, fall protection, scaffold awareness, confined space with fire & hole watch, lead & asbestos awareness, and CPR/First Aid training.

***Note:** Mandatory for all Apprentices

CURSOS EN ESPAÑOL

Construcción General - 40 horas

Este curso provee de un aprendizaje de los fundamentos de la industria de construcción. Cubre los asuntos siguientes: herramientas de gas, eléctricas y neumáticas, reconocimiento de los materiales, control de tráfico/Abanderado, compacción, aparejo y señalar, soplete y corte, e introducción a matemáticas de la construcción.

***Nota:** Obligatorio para todos los aprendices

El Entrenamiento de la Disminución del Asbesto

- Inicial del Trabajador de Asbesto - 32 horas
- Repaso de Asbesto del Trabajador - 8 horas
anualmente renovada

Entrenamiento del asbesto se ofrece a lo largo de todo el año y es una práctica reconocida de la demolición al lado de OSHA y de la unión de los trabajadores. El entrenamiento se conforma con las regulaciones del departamento de Salud de Minnesota para las personas que realizan el trabajo de asbesto en el estado de Minnesota. Los individuos que desean trabajar con el asbesto en el estado de Minnesota deben:

***Trabajadores:** Pruebe a 1.000 horas de experiencia en la construcción

El estado de Minnesota requieren una declaración jurada terminada, un foto y un honorario.

***Nota:** Registro a través de su unión local

Seguridad de Líneas de Gasducto / Oleoducto - 40 horas

Este curso introduce las tareas asociadas con la construcción de la tubería del gas natural y del petróleo. Los estudiantes aprenden sobre la preparación apropiada, localizar, la alineación Gradación, revestimiento de tubería, la fusión de La pipa plástica, reparaciones de fugas, hacer puntura y la protección catódica.

Semana de Seguridad - 40 horas

Este es un curso intensivo de seguridad que cubre el OSHA 30, la protección de la caída, el conocimiento del andamio, el espacio confinado con el vigilancia del fuego y del excavación, el plomo y el conocimiento del asbesto, y entrenamiento de RCP/ Primeros Auxilios.

***Nota:** Obligatorio para todos los aprendices

Training Schedule At A Glance

Asbestos Air Sampling

Feb 11-12, 2009 – Wed-Thu
Mar 23-24, 2009 – Mon-Tue

FROM THE NORTH

Take 35E South to County Road 14 (Hugo/Centerville) Exit #123. Turn left at the top of the ramp and go approximately ¼ mile. The Training Center is on the right-hand side.

CLASS SCHEDULE

Skills & Safety Training:

Day classes begin promptly at 7:00 am
Day class end times vary based upon the course

Environmental Training:

Day classes begin promptly at 7:00 am
Day class end times vary based upon the course

Evening:

Evening classes are Monday-Thursday
from 5:00 p.m. – 9:00 p.m.

CLASS CANCELLATION

Cancellations are announced on WCCO Radio 830AM and WCCO Television Channel 4 if classes are cancelled due to weather.

LODGING/STIPENDS

Trainees living outside a 75-mile radius by zip code qualify for a room and a stipend upon course completion. Trainees share a room with another Trainee at the Best Western White Bear Lake Hotel at: 4940 Hwy. 61, White Bear Lake, MN 55110, (651) 429-5393.

VENDING

A lunch/break room area contains vending machines, microwaves and refrigerators. No food service is available. Smoking is allowed in designated areas only.

ATTIRE

Proper classroom attire is expected. You must have long pants, shirts with sleeves and work boots. Come prepared to work inside and outside. Hard hats and safety glasses will be provided. Any trainee improperly dressed will not be permitted to attend class.
